Eccentricity of the anode pin with respect to the cathode:  
 max. 0.25 mm

Excentricité de la broche de l'anode par rapport à la  
 cathode: 0,25 mm au maximum

Exzentrizität des Anodenstiftes gegenüber der Katode:

In order to avoid strain, the connections to the cathode  
 should be made elastically

Afin d'éviter des tensions du verre, la cathode doit être  
 connectée par des conducteurs flexibles

Um Glasspannungen zu vermeiden sind die Katodenzuleitungen  
 federnd zu halten
